November 6, 2007

NOTICE TO PROSPECTIVE BIDDERS

**WY PRA GRTE 13(4)-WY PRA GRTE 13(8)-WY PLD GRTE 710(1)
North Park Road, Phase II-North Park Road, Snake River Bridge-Grand Teton Park Pathways,
Phase I**

Solicitation No. DTFH70-08-R-00008

The attached preliminary plans are being furnished to aid the Yellowstone/Grand Teton MATOC contractors and prospective subcontractors in identifying the location and type of work for this project. You can find information on the Yellowstone/Grand Teton MATOC contractors on our website at <http://www.wfl.fhwa.dot.gov/edi/idiq/ygt.htm>.

The project will be advertised during a period when viewing of the project is not possible due to snow. Therefore, prospective bidders are encouraged to view the project during the fall as conditions permit. No Federal Highway Administration personnel will be available for show-me tours.

The National Park Service controls access of the Teton Park Road from Taggart Lake Trailhead Parking Area to the South Jenny Lake Area with a gate at approximate milepost 3.5. This area of Teton Park Road is adjacent to a portion of the Grand Teton Park Pathways Project. To gain access to the gated area please call the contacts listed below, in order, two business days prior to needing access.

Sena Wiley, Park Engineer, 307-739-3352

Karen Frauson, South District Ranger, 307-739-3329

Grand Teton Park Dispatch, 307-739-3300

While it is not required, we highly recommend that you videotape the entire project for your use during the estimating phase. We have received good feedback from contractors who have done this in the past.

The North Park Road, Phase II, Project begins at approximately milepost 17.3 on North Park Road, Route 13, and ends at approximate milepost 23.8. The North Park Road, Snake River Bridge Project begins at approximate milepost 24.4 and proceeds northerly approximately 0.14 miles. The Grand Teton Park Pathways Project begins at approximate milepost 0.25, Route 109 (Dornan's Access Road), proceeds towards Teton Park Road, Route 11, and continues along the Teton Park Road to the South Jenny Lake Area.

North Park Road begins at Moran Junction—approximately 30 miles north of Jackson, Wyoming, in Teton County, along US Highways 26/89/191—and proceeds northerly on US Highways 89/191/287. Teton Park Road begins at Moose Junction—approximately 12 miles north of Jackson, Wyoming, along US Highways 26/89/191—and proceeds into the Park toward Jenny Lake.

The project consists of drainage, grading, aggregate base, asphalt concrete paving, structures, bridge removal, and steel and concrete bridge construction. It was designed using metric measurement and references the *Standard Specifications for Construction of Roads and Bridges on Federal Highway Projects, FP-03, Metric Units*.

Requests for technical information about this project will only be accepted in writing. Send written questions to:

Fax: 360.619.7932; OR

Email: plans_spec@fhwa.dot.gov ; OR

Mail to: FHWA-Western Federal Lands Highway Division
Contracts Section
610 East Fifth Street
Vancouver, WA 98661-3801

Should you have general questions, please contact our office at contracts@mail.wfl.fhwa.dot.gov or at 360.619.7520.

Solicitation documents will be available on FedBizOpps during the early months of 2008. Please monitor FedBizOpps or our Western Federal Lands WebPage <http://www.wfl.fhwa.dot.gov/edi/construction.htm> for actual date of solicitation release. To receive automatic notification through FedBizOpps, select the “register to receive notification” feature and follow the steps.

Thank you for your interest in our projects.
